

TRAFFIC CONTROL DIVISION

May 6th, 2022

Good afternoon,

We are Southern Commercial Development, LLC. We work with CSX Transportation providing official notification, traffic control, and detour signage for railroad crossing closures which require routine maintenance.

CSX Transportation has scheduled the attached list of crossings to be closed for maintenance and repair. This will necessitate rerouting traffic. Signage will be in place marking detour routes. Please note the expected closure dates. Each crossing will be closed for 2 to 5 days depending on the maintenance work that needs to be performed. There are special circumstances where some crossings are the only egress for the traveling public. With these one way in/out access crossings, we can request special accommodations be made for these closures. Please contact me if you see a concern and we can work together to develop a plan.

We will update you with changes in the schedule as they occur, as they are highly likely in this field of work. Please note that any/all dates are subject to change due to weather and/or other unforeseen conditions.

Please notify us of any required detours, permits or any questions.

If there is another point of contact to better review the attached list, please forward on or reply to this email with their contact information.

Please feel free to call me directly if you have any questions, comments, or concerns. My office number is 229-262-4394.

Thank you,
Erika E. Nickell
Assistant Railroad Manager, CSX Transportation Division
Southern Commercial Development, LLC
